### 8:25 - Apparel (Raedean and Lavern)

- Raedeans 2 cents: We will never find something that everyone in our group will want to wear; not even Bridesmaids match anymore. Think of it as your favourite team apparel selection: jerseys, t shirts, hats, sweaters etc. They are united in colour and representation but different in style and fit. I think it would be best if we had a few options to choose from but all with the same logo and placement of that logo (small logo on the front chest above heart and larger logo on the back panel of apparel). Options for clothing that I think we can all agree on are:
  - Work vest
  - Neoprene zip jacket
  - Jean jacket
  - Ball cap/ hat
- I also think that it would be smart of us to get t-shirts made up as well that stand out so when we are working an event we are easy to spot - they can be worn under our other apparel. I have a company that makes nice stuff for a great price (\$10-\$15 a t shirt) then that way we all have a matching t-shirt and then for the nicer stuff that we are going to individually spend money on we get what we want.

### 8:30 - Round Table

### 8:35pm - Adjournment
